BORN
TO
PERFORM

NEWS > 2022 | 2023

” More than 25 years ago, I was looking for the perfect sportswear for me. Instead of giving up then, I founded Skinfit. I had no idea how successful it would turn out to be. But from the beginning it was clear to me that Skinfit should go a different way, a separate way. That is still the case and we are very proud of that.

Werner Battisti

WERNER BATTISTI | Executive board and founder

” We always strive to develop the best sportswear for all those who want to get more out of themselves – who always want to give their best. With our new collection, we have taken the first step. Now it's up to you: what do you want to achieve? No matter what your goals are, we'll always be at your side.

Daniel Frei

DANIEL FREI | Executive board

**WHAT DO
YOU WANT
TO ACHIEVE?**

BORN TO PERFORM

BORN TO
RUN
TRI
CLIMB
SKI
CYCLE

**WHAT DO
YOU WANT
TO ACHIEVE?**

It doesn't matter what your goal is. What matters is that you know what you want to achieve. That you are willing to give everything for it. That you also adapt to the unpleasant edges. That you compromise. That if necessary you take a step back. Stand up again. It doesn't matter what others think of your goal. All that matters is your determination, your motivation and your drive. All that matters is you, your intention and the way to get there. You can achieve anything.

MANIFEST

› WE ARE SKINFIT

We are the drive and the motivation. The head start and the energy boost. We keep going when others have long since stopped. We give everything so that each individual can give his or her personal best. But above all, we want to get better together.

Every. Damn. Day.

That's why we developed a clothing system that is there for us 365 days a year. A system that makes 37°C body temperature a constant. And does a lot with little. A system that we are constantly improving. Because we know exactly: There is always room for improvement.

We are always there when it matters. At very close range. At the summit. At the finish line. At every best top performance. Because we are Skinfit. The kind athletes are made of.

WE BELIEVE IN PERFORMANCE ANYWHERE AND ANYTIME

We love this moment: when we leave our comfort zone and test our own limits. Because in this moment we know that we have become a little better again. Day by day – step by step – we improve our performance. With one goal: our personal top performance.

A photograph of two trailrunners, a man and a woman, running on a dirt path through a forest. The man is in the foreground, wearing a blue jacket and a patterned headband. The woman is behind him, wearing a red jacket and a patterned headband. They are both wearing backpacks and running shoes. The background shows tall trees and a view of mountains in the distance.

” Performance for me means always sticking with it and working hard to finally be able to rely on my body and deliver on day X.

IVAN FAVRETTO | Skinfit Athlete Trailrunning

” Performance for me means always getting the maximum out of myself and every moment – whether in training or in competition.

LORD JENS KRAMER | Skinfit Athlete Trailrunning

THE JOURNEY IS THE DESTINATION

> STICK WITH IT, NO MATTER HOW LONG IT TAKES

If you think bouldering is about stubbornly climbing one route after another, you're wrong. Rather, it's about deciding on a route – a goal – even creating a new route, and then doing everything possible to reach the top sometime.

With the goal always in mind, it's all about getting there. It's about every single attempt, every fall, every grip and every discussion about alternative kicks – it's about the sum of all the individual parts, because only this leads one step closer to the goal. It doesn't matter if it takes days, weeks or even years. All that counts is the will to stick to it and not to give up. Never give up.

With the goal always in mind, however, it's ultimately about getting there. It's about every single attempt, every fall, every grip and every discussion about alternative kicks – it's about the sum of all the individual parts, because only this leads step by step closer to the goal. It doesn't matter if it takes days, weeks or even years. All that counts is the will to keep at it and not to give up. Never give up.

Do you want to challenge yourself and your body while bouldering? Then get your free copy of the „Boulder ABC“ brochure at [SKINFIT.EU/BOULDER-BROSCHUERE](https://www.skinfit.eu/boulder-broschuere)

KLIMA FUNCTIONAL UNDERWEAR

> BETTER IS ALWAYS POSSIBLE

Our founder Werner Battisti was looking for the perfect clothing for himself more than 25 years ago. Instead of giving up, he founded Skinfit. As a passionate triathlete, raised in the mountains of Vorarlberg, it was pretty clear: his new clothing had to be not only highly functional, but also usable for as many different sports disciplines as possible.

He made his first experiences in the textile industry and fiddled around until he developed the unique KLIMA Pro fabric structure. A revolution, as the KLIMA Pro components not only had a cooling effect during intensive sessions, but were also dry again in no time. In cold temperatures, they stored body heat in the structure and offered ideal cooling protection.

And today it is no different. Because the structure of KLIMA Pro has hardly changed since its development. What is good, stays. And KLIMA Pro still belongs to the top class of functional underwear. What has changed since then, however, is the diversity of the collection - today we proudly look at a complete clothing system. Because settling for something has never driven anyone to top performances.

ON TRACK FOR THE BEST PERFORMANCE

**» FROM THE SUMMIT OF DESIRE
TO THE FINISHING ARCH**

Whereas for some a very special summit, an untracked slope or even just the first meters of altitude in the calm snowy nature can be a goal, more and more ski mountaineers are striving to reach a finishing arch in a ski touring race.

Skimo Racing is booming and is pure performance! Whether Patrouille des Glaciers, Sellaronda or Mountain Attack – everything is about your best performance. And it is also why we give everything every day. Why we try to make everything better to the last detail.

And you can feel it. Not only in our brand new Skimo Suit, but in all our products. Because Skinfit is more than just a product. It's the promise that every item holds up to the toughest competitions, runs or tours.

Many thought-out details make the Diavolezza Skimo Suit the ultimate competition weapon. Read more at [SKINFIT.EU/DIAVOLEZZA](https://www.skinfit.eu/diavolezza)

› NOTE ON POSSIBLE DELIVERY DELAYS

Due to the currently very tense international supply situation and increasingly frequent unforeseeable challenges in our procurement process, we would like to inform you that there might be delays in the delivery of our new articles. All current availability and possible delays can be found for each product on our website **SKINFIT.EU**.

› YOU WANT MORE?

This is just an overview of our new products from the Autumn-Winter collection 2022/23. On our website **SKINFIT.EU** you will find our complete collection as well as detailed views and information about each product.

SKINFIT MODULARIO

THE HEART OF THE SKINFIT COLLECTION

From sports undergarments to sportswear – the skinfit Modulario system supports you with its 5 modules (KLIMA, AERO, VENTO, CALDO and SCUDO) throughout the year for various sports and ensures perfect climate management.

Skinfit Modulario products are characterized by the following properties:

COMPATIBILITY

Individual products as well as the 5 modules (KLIMA, AERO, VENTO, CALDO and SCUDO) can be combined as desired.

VERSATILITY

Skinfit Modulario products can be used for a variety of sports. These products are additionally marked with the multi-sport icon.

YEAR ROUND USE

The combination of the individual modules in layers allows for use in different seasons.

Skinfit Modulario products not only fulfil a purpose, but in combination with other skinfit Modulario products, one and the same product can sometimes perform very different functions.

5 MODULES

- KL'MA** The functional undergarments with the right climate management.
- AERO** Breathability. Freedom of movement. Versatility. Whether it is used as a base- or midlayer.
- VENTO** The breathable wind protection.
- CALDO** Insulation and heat in the smallest packing size.
- SCUDO** Protects against wind and weather.

” One product from each module and you're superbly equipped for an incredible number of sports and conditions.

WERNER BATTISTI | Executive Board & Owner

4 FACTORS

These four decisive factors have emerged from countless personal conversations that our employees have had with our customers over the past few years. They were decisive for the fact that our customers left our shop satisfied with a product that was ideal for their requirements. Our vision is for every skinfit customer to become a brand ambassador. We can only achieve this if you get the right product for you.

- Sport** Fewer products, more uses.
- Intensity** From comfortable to full throttle!
- Temperature** Heat accumulation and cold shock are a thing of the past.
- Weather** Precipitation, wind or sun: you're prepared for everything.

3 LAYERS

3-layer principle, onion principal or layered look. No matter what you call it, the bottom line is that it works. And it does. That's why the 3-layer principle is the basis for skinfit Modulario. Several thin layers can be combined. This supports the body's own processes and gives active athletes a feeling of comfort even in extreme situations.

- Regulation** Warms in the cold and cools in the heat.
- Insulation** Stores your body heat and protects against hypothermia.
- Protection** Protection against wind and weather.

You can respond very individually to the different weather conditions by just putting on or taking off products and layers.

2 FUNCTIONS

Skinfit products fulfil the two basic functions that functional sportswear has to fulfil: Cooling and protection.

- Cooling** a mobile air conditioner for your body, which gives off excess heat.
- Protection** against external influences such as wind and weather.

1 GOAL

37°C body temperature – the secret of your personal best. If we are too cold or too hot during sports, our performance drops. Our body needs to expend extra energy to regulate body temperature using the body's own processes. Your optimal operating temperature is 37°C. skinfit Modulario offers you and your body the right solutions, so you don't waste unnecessary energy and can achieve your personal best.

SKINFIT PRODUCT PROFILE

Our product profile consists of icons, product features and informative texts. This allows you to see at a glance what the product is really capable of. The products can also be compared with each other.

SCUDO

VERMUNT JACKET 5019

The rain jacket with a hood made of a robust, waterproof and windproof 3-layer hardshell functional fabric protects against wind and weather all year round. Additional protection is provided by water-repellent zips and taped seams.

FOCUS SPORTS

 Multisport	 Trailrunning	 Cross-country skiing
 Triathlon	 Mountain biking	 Active Style
 Mountaineering	 Road cycling	
 Running	 Ski mountaineering	

PRODUCT FEATURES

Breathability	prevents heat build-up and provides for a comfortable fit
Cooling	a mobile air conditioner for your body, which gives off excess heat
Insulation	stores your body heat and protects against hypothermia
Waterproofness	protects you against rain and moisture
Wind protection	prevents unwanted wind from entering
Drying time	absorbs little moisture and dries quickly
Sturdiness	resistant to any terrain
Weight	important arguments to take away with you
Year round use	the right product for every season

Water column	prevents you from getting wet while working out in the rain
MVTR**	(water-)vapour elimination to reduce heat build-up
Packing size	small and packable, especially suited to travel

Aerodynamics	provides the wind less attack surface and makes you quicker
Bacteriostatic	bacteriostatic and therefore stays odourless longer
Hydrodynamics	reduced water resistance, leads to better lubricity

YOU WOULD LIKE TO HAVE MORE INFORMATION?

You can easily find all our products on our website by typing **SKINFIT.EU/ITEMNUMBER**. For the 5019 SCUDO Vermunt jacket it is for example like this: **SKINFIT.EU/5019**

* The majority of the Skinfit collection consists of unisex products. Specific women's or men's clothing is indicated by the addition of „Women“ or „Men“ in the product name.
