

The logo for 'skinfit' features a white stylized arch above the brand name in a lowercase, sans-serif font.A full-page photograph of three cyclists riding on a narrow asphalt road that winds through a dramatic, rocky mountain landscape. The cyclists are in motion, leaning forward. The lead cyclist on the right wears a white and black kit and a white helmet. The cyclist in the middle wears a red and white kit. The cyclist on the left wears a yellow and black kit. The sun is low on the horizon, creating a lens flare effect. The sky is filled with large, white clouds. The road is flanked by high, craggy rock walls. A stone wall and a wooden railing are visible on the left side of the road.

NEWS  2022

” Sport keeps us fit and trains our bodies – that much is indisputable. But it is often about so much more than just exercise. It’s about our identity, our values and our goals. It’s also about our connection to others – as what connects us more than common experiences and memories that we can share?

WERNER BATTISTI | Executive Board and Owner

Werner Battisti

” We ventured out again, explored local and new surroundings and demanded the absolute utmost from our clothing under various conditions. The result is everything you can discover on the following pages: Many new companions for your sporting adventures.

DANIEL FREI | Executive Board

Daniel Frei

AT A GLANCE

In this brochure, we would like to introduce you to the new products of the 2022: Spring/Summer collection. Here you will find not only innovative products, but also exciting stories from the world of Skinfit. The integrated QR-Codes and links will provide you with further product information. On the enclosed poster, you can also find an overview of our entire collection, which we describe in detail on our website: www.skinfit.eu

ONLY ATHLETES KNOW, ▶ WHAT ATHLETES NEED!

All of us at Skinfit have one thing in common: a passion for sport. This is what drives us every day. It moves us and connects us. It motivates us to achieve and perform – and the irrepensible will to always get the best out of ourselves, is just simply in our DNA. When it comes to sports-wear, we think like professional athletes too: We want to be better, faster and more successful, so that our athletes and customers are also better, faster and more successful. Striving is our daily bread, as settling for something never led anyone to peak performance.

This is exactly what makes us special. When we develop a product, we start with the requirements of athletes. What do they need? And often just as important: What do they not need? We are continually optimising – and this is reflected in the 2022: Spring/Summer collection. If you look closely you will recognise many familiar product names. Slightly adapted and improved but always with the focus on the essentials. And always with a view to the goal: absolute best performance.

NEW COLORS

2018 | AERO | DENVER WOMEN'S T-SHIRT

breathable		high
drying time		short
year-round use		suitable
UV protection	50 UPF	
weight	90 g	
packing volume	250 ml	
bacteriostatic		

Women's classic. The AERO Denver Women's T-Shirt combines lightness and maximum breathability in a specially developed fabric construction. The soft and elastic functional material prevents unpleasant odours and dries particularly quickly. Ideal for all-year use on the mountain, for running or trail running.

Fabric 1: 80% Polyamide, 20% Elastane

Sizes: XS / S / M / L

Colours: rubin, salvia

Price: € 66,-

6065 | RAGAZ SHORTS

breathable		high
sturdiness		high
weight	165 g	
packing volume	400 ml	

Multipurpose weapon. The Ragaz Shorts stand out for their clever combination of comfort and versatility. Their soft yet robust functional material quickly wicks away excess body heat and moisture to the outside, and thanks to their high elasticity, they follow your every move. They can be used for multi-sports, but are particularly suitable on the mountain.

Fabric 1: 89% Polyamide, 11% Elastane

Sizes: XXS / XS / S / M / L / XL

Colours: salvia, black

Price: € 139,-

3020 | VENTO | FALUDRIGA JACKET

breathable		high
wind protection		strong
drying time		short
weight		light
year-round use		suitable
UV protection	45 UPF	
weight	155 g	
packing volume	375 ml	

Light and reliable. This lightweight jacket impresses with maximum breathability and high wind protection. Despite the windproof and water-repellent exterior, excess body heat can escape quickly. The VENTO Faludriga jacket is suitable for all endurance sports where a light and small packable windbreak is required.

Fabric 1: 93% Polyamide, 7% Elastane

Sizes: XS / S / M / L / XL / XXL

Colours: atlantic, rubin, dunkelorange, senape

Price: € 169,-

3021 | VENTO | ROFAN PANTS

breathable		high
wind protection		strong
drying time		short
sturdiness		high
year-round use		suitable
weight	295 g	
packing volume	575 ml	
ergonomic cut		

For the Alpinist. The light yet robust VENTO Rofan Pants provide reliable protection from the wind despite their high breathability. While excess body heat can escape optimally, water and dirt repellent fabric properties offer additional protection in the mountains. The pants can be used for a variety of sports, but are particularly impressive on the mountain when hiking or climbing.

Fabric 1: 85% Polyamide, 15% Elastane
Sizes: XS / S / M / L / XL / XXL
Colours: black, atlantic
Price: € 184,-

5015 | SCUDDO | VERMUNT WOMEN'S JACKET

sturdiness		high
year-round use		suitable
water column	20000 mm	
MVTR	20000 g/m2/24h	
weight	285 g	
packing volume	600 ml	

Rainproof. This women's raincoat will protect you from the elements: the waterproof and windproof triple-layer functional hardshell fabric offers reliable protection from the weather. Versatile and designed to meet high standards, it's sure to impress in sporting circles and everyday wear with its elegant colours and fitted cut.

Fabric 1: 100% Polyamide
Sizes: XS / S / M / L / XL
Colours: dark laguna, dark yellow
Price: € 369,-

5019 | SCUDDO | VERMUNT JACKET

waterproofness		high
wind protection		strong
sturdiness		high
year-round use		suitable
water column	20000 mm	
MVTR	20000 g/m2/24h	
weight	360 g	
packing volume	800 ml	

Absolutely weather independent. The SCUDDO Vermunt Jacket protects you in adverse conditions. The robust, waterproof and windproof 3-layer hardshell functional fabric prevents moisture penetration, while many details provide additional protection as well as individual regulation. This rain jacket will convince as a multisport all-season jacket for sports as well as everyday wear.

Fabric 1: 100% Polyamide
Sizes: XS / S / M / L / XL
Colours: senape, salvia
Price: € 369,-

ALWAYS KEEP MOVING

➤ WHETHER NEAR OR FAR!

Put your feet up, switch off and feast with relish? Sure, that's a must! But not without a good workout beforehand. Others may like to think that a holiday means finally having time to do nothing at all – but not us, not the #outsiders. We just love that moment when we can challenge ourselves and leave our comfort zone once again.

Relaxation also has a lot to do with sport for us. With every movement we can reduce stress hormones and promote happiness hormones in abundance. Sport is not just good for our bodies but also our souls. Plus, it can be integrated into any trip, whether it's a swim in the sea, a run around the neighbourhood or sightseeing by bike.

The best way to discover new things is on the move – and every move counts.

5018 | SCUDO | SELLA JACKET

breathable		high
waterproofness		high
wind protection		strong
year-round use		suitable
water column	10000 mm	
MVTR	10000 g/m2/24h	
weight	205 g	
packing volume	400 ml	

Ace with sleeves. The SCUDO Sella Jacket is convincing with its minimal weight and small pack size. The laminated and waterproof 2,5-layer hardshell fabric, taped seams and splash-proof zips provide reliable protection against wind and precipitation. Thanks to its reduced design, the jacket saves a lot of weight and always finds a place in your backpack.

Fabric 1: 100% Polyamide
Sizes iceblue: XS / S / M / L / XL
Sizes black: XS / S / M / L / XL / XXL
Price: € 234,-

2031 | AERO | CAMPELLO T-SHIRT

breathable		high
drying time		short
year-round use		suitable
UV protection	50 UPF	
weight	140 g	
packing volume	400 ml	
bacteriostatic		

Casual power. The Campello T-Shirt delivers the highest performance with style. The light and breathable AERO Skinlife Nexten fabric not only prevents the formation of unpleasant odours, but also guarantees excellent climate and moisture management. It is ideal for multi-sport use where you don't want to compromise.

Fabric 1: 80% Polyamide, 20% Elastane
Sizes iceblue: S / M / L / XL
Sizes black, laguna, dark red, pistacchio: S / M / L / XL / XXL
Price: € 74,-

7066 | GARSELLI TRAIL SHORTS

breathable		high
drying time		short
weight		light
UV protection	45 UPF	
weight	145 g	
packing volume	300 ml	

Over hill and dale. The Garselli Trail Shorts offer the classic combination of breathability, freedom of movement and protection. While the soft inner shorts quickly wick away moisture, the ultra-light outer shorts provide sufficient protection. An elastic waistband with drawstring offers optimal support. The Trail shorts offer everything you need for trail running, but are also ideal for running.

Fabric 1: 93% Polyamide, 7% Elastane
Fabric 2: 85% Polyamide, 15% Elastane
Sizes: XS / S / M / L / XL
Colours: black, salvia
Price: € 114,-

**2032 | AERO |
CAMPELLO WOMEN'S T-SHIRT**

TAKE A HOLIDAY

➤ RIDE A BIKE!

Activity and exercise are always part of the daily plan. Not just in everyday life, but also far from home. And one of the best ways to get to know new places, is by bike. After all, what could be better than pedalling hard and exploring unknown locations along the way?

Whether on a gravel bike or a road bike, whether in a training camp, bike-packing or as an addition to a demanding day tour – you can simply experience more on two wheels! Do the winding mountain roads lead up to a spectacular viewpoint? Stop and marvel! Do the locals want to tell their story? Stop and listen! Is the gelateria luring you in with a bit more than just an espresso? Stop and enjoy!

It's the little moments along the way that we often remember best. And wherever we cycle, we always come back with countless unforgettable memories.

SPORT MOVES US

> AND CONNECTS US!

Sport keeps us fit and trains our bodies – that much is indisputable. But it is often about so much more than just exercise. It's about our identity, our values and our goals. It's also about our connection to others – as what connects us more than common experiences and memories that we can share?

SKINFIT MODULARIO

THE HEART OF THE SKINFIT COLLECTION

From sports undergarments to sportswear – the skinfit Modulario system supports you with its 5 modules (KLIMA, AERO, VENTO, CALDO and SCUDO) throughout the year for various sports and ensures perfect climate management.

skinfit Modulario products are characterized by the following properties:

COMPATIBILITY

Individual products as well as the 5 modules (KLIMA, AERO, VENTO, CALDO and SCUDO) can be combined as desired.

VERSATILITY

skinfit Modulario products can be used for a variety of sports. These products are additionally marked with the multisport icon.

YEAR-ROUND USE

The combination of the individual modules in layers allows for use in different seasons.

skinfit Modulario products not only fulfil a purpose, but in combination with other skinfit Modulario products, one and the same product can sometimes perform very different functions.

› 5 MODULES

- KL'MA** The functional undergarments with the right climate management.
- AERO** Breathability. Freedom of movement. Versatility. It doesn't matter whether it is used as a base- or mid-layer.
- VENTO** The breathable windbreaker.
- CALDO** Insulation and heat in the smallest packing size.
- SCUDO** Protects against wind and weather.

“One product from each module and you're superbly equipped for an incredible number of sports and conditions.”

WERNER BATTISTI | Executive Board & Owner

› 4 FACTORS

These four decisive factors have emerged from countless personal conversations that our employees have had with our customers over the past few years. They were decisive for the fact that our customers left our shop satisfied with a product that was ideal for their requirements. Our vision is for every skinfit customer to become a brand ambassador. We can only achieve this if you get the right product for you.

- Sport** fewer products, more uses.
- Intensity** from comfortable to full throttle!
- Temperature** heat accumulation and cold shock are a thing of the past.
- Weather** precipitation, wind or sun: you're prepared for everything.

› 3 LAYERS

3-layer principle, onion principal or layered look. No matter what you call it, the bottom line is that it works. And it does. That's why the 3-layer principle is the basis for skinfit Modulario. Several thin layers can be combined. This supports the body's own processes and gives active athletes a feeling of comfort even in extreme situations.

- Regulation** warms in the cold and cools in the heat.
- Insulation** stores your body heat and protects against hypothermia.
- Protection** protection against wind and weather.

You can respond very individually to the different weather conditions by just putting on or taking off products and layers.

› 2 FUNCTIONS

skinfit products fulfil the two basic functions that functional sports-wear has to fulfil: Cooling and protection.

- Cooling** a mobile air conditioner for your body, which gives off excess heat.
- Protection** against external influences such as wind and weather.

› 1 GOAL

37°C body temperature – the secret of your personal best. If we are too cold or too hot during sports, our performance drops. Our body needs to expend extra energy to regulate body temperature using the body's own processes. Your optimal operating temperature is 37°C. skinfit Modulario offers you and your body the right solutions, so you don't waste unnecessary energy and can achieve your personal best.

» PRODUCT FEATURES

Breathability	prevents heat build-up and provides for a comfortable fit
Cooling	a mobile air conditioner for your body, which gives off excess heat
Insulation	stores your body heat and protects against hypothermia
Waterproofing	protects you against rain and moisture
Windbreaking	prevents unwanted wind from entering
Drying time	absorbs little moisture and dries quickly
Robustness	resistant to any terrain
Weight	important arguments to take away with you
Year-round use	the right product for every season

UV protection	protects your skin during activities in the sun
Water column	prevents you from getting wet while working out in the rain
MVTR**	(water-)vapour elimination to reduce heat build-up
Packing size	small and packable, especially suited to travel

Aerodynamics	provides the wind less attack surface and makes you quicker
Bacteriostatic	bacteriostatic and therefore stays odourless longer
Ergonomic cut	despite inelastic materials, there is a surprisingly high freedom of movement
Hydrodynamics	reduced water resistance, leads to better lubricity
Ultra-small packing size	saves space and is therefore ideal for travel
Comfort	very comfortable to wear

SKINFIT CONTACT

Our direct marketing has one big advantage for our customers: We offer excellent customer service and competent product consulting. Because our selected Skinfit shop partners are also active endurance athletes, they know the needs of other athletes thanks to their own experience. Due to direct information channels between our shops and the product development department, customer suggestions and customer feedback can quickly be included in product overhauls and new developments. If a certain item is not available in the right size, our central warehouse sends it as quickly as possible and free of charge.

Skinfit has local subsidiaries with shops and showrooms in the following countries:

Austria, Germany, Switzerland, Liechtenstein, Belgium, France, Italy, Israel, USA, Australia and South Africa.

In addition, we are constantly expanding into new markets. For general inquiries or questions about our brand in general, please contact:

CARE INSTRUCTIONS

Functional clothing is made of high-tech materials. To prolong the lifespan and to ensure maximum functionality of your skinfit garments, please observe the following care instructions:

› HAND WASH

We recommend machine washing all items separately before wearing. Please do not wash any of our products by hand. Colours may transfer onto other garments more easily than in the washing machine due to the smaller amount of water used and the resulting higher concentration of colourants. Simply follow the care instructions for your garments and combine only similar colours when washing.

› WET GARMENTS

Do not leave your sports garments lying around when wet, as colours may start to bleed. Always dry your skinfit clothing completely (especially after sweating).

› SUNLIGHT

Over time, ultraviolet rays (sunlight) lead to fading in fluorescent colours (e.g. neon yellow). This is a natural process and not a fault in the product.

› FABRIC SOFTENERS/WASHING INSTRUCTIONS

Do not use fabric softeners on sportswear. They reduce the functional characteristics (i.e. moisture transport, fast drying etc.) of your garments. Every time you wash your garment, the fabric is subject to mechanical stress. Please follow the individual instructions on your product's care label. Therefore, turn the garment inside out before washing to protect the fabric's surface as well as any prints or reflectors. We recommend our CareTEX products which are specially designed for our sports clothing. They ensure that your clothes remain functional and protect fabrics.

› USE OF A DRYER

Some garments might shrink if subjected to excessive heat from a dryer. We recommend linedrying if possible or using the low heat setting of your dryer.

› WEAR/PILLING

The softer and more comfortable a fabric, the less wear-resistant it usually is. Thus, we recommend that you avoid any friction with belts, straps and rough materials like Velcro etc. A certain degree of pilling is unavoidable in some garments, however this does not impact on their function.

› GARMENTS WITH ELASTHANE

Elasthane is a yarn that is woven into fabrics to increase their elasticity. Chlorine, perspiration and cosmetic products are particularly harmful to these yarns. Special care, however, will increase their durability. Therefore, always rinse such garments in clear water after use in chlorinated water or after doing exercising.

› DURABLE WATER REPELLENT FINISHING (DWR)

Some garments have a special durable water repellent which repels water, rain, dirt or in some garments, improves hydrodynamic properties. This finish washes out when the garment is washed several times, but can be restored by applying heat (tumble-dry or iron on low heat).

› CARE OF GLOVES WITH LEATHER INSERT

Our gloves are labeled as not washable. If you need to clean your gloves, please use lukewarm water and a small quantity of a mild detergent. Please use the recommended dosage of detergent, since only a very small quantity is needed for hand wash. Too much detergent may damage the materials. We recommend our CareTEX, which protects the material and ensures that your clothes remain functional. Rinse the detergent well and wrap the wet gloves in a dry towel and press the water out. After being washed by hand in this manner, the gloves can be dried in open air. Do not place them on a heater or in the sun. As soon as the gloves are half dry, put them on and make a fist with your hand, so that the initial shape is recreated. As soon as the gloves have dried, you may softly knead the leather and apply a leather care product.

› WOULD YOU LIKE TO HAVE YOUR SKINFIT PRODUCT PRINTED?

Then it's best to get everything from one source and use our in-house printing service. Whether it's individualised T-Shirts for your running group, uniform team clothing for your sports club or the next branded company gift - we know how and which products can be printed and will find the best solution for your needs.

You can find more information about the Skinfit printing service at www.skinfit.eu/print or by emailing us directly at druckservice@skinfit.eu.

GENERAL CONDITIONS OF CONTRACT

› VALIDITY OF GENERAL CONDITIONS OF CONTRACT:

All our business transactions are concluded on the basis of these General Conditions of Contract. All other General Conditions of Contract of customers are herewith explicitly denied. Whenever these General Conditions of Contract refer to consumers, the relevant provisions shall be valid for consumers, but not for businesses.

› OFFER – INFORMATION ON CONCLUSION OF CONTRACT:

All offers are without obligation and do not oblige us to perform. Before an offer is given via Skinfit's webshop, the consumer is informed of the technical steps leading to conclusion of contract. Contracts must be concluded in the English or German language. The text of the contract (order confirmation) shall be sent to the consumer by email without delay, however no later than on the following business day, and thereafter will no longer be electronically saved by Skinfit.

› RIGHT TO CANCELLATION FOR CONSUMERS:

Consumers have the right to cancel this contract within fourteen days without giving a reason. The cancellation period is fourteen days from the date on which you, or a third party named by you who is not the carrier, took possession of the last goods/last partial delivery. To exercise your right to cancellation, you must inform us of your decision to cancel this contract by means of a clear declaration (e.g. via a letter sent by mail, a fax, or an email). You can use the enclosed cancellation template for this purpose. To protect the cancellation period, it is sufficient to send the notification of enforcement of the right to cancellation before the end of the cancellation period. Consequences of cancellation: If you cancel this contract, we shall reimburse you with all payments which we have received from you, including the delivery costs (excluding additional costs which are incurred in the event that you have chosen a delivery method other than the standard delivery method offered by us), without delay and no later than within fourteen days from the date on which we receive notification of your cancellation of this contract. To refund your payment, we will use the same method which you used to make the original transaction, unless another method has been expressly agreed with you and under no circumstances will you be charged any fees as a result of this refund. The right of withdrawal is excluded if the goods are manufactured according to customer specifications or are clearly tailored to the personal needs of the customer. However, we can refuse to issue a refund until we have received the goods or until you have provided proof that you have returned the goods, whichever is the earliest. You must return or hand over the goods without delay and in any case, within fourteen days from the date on which you inform us of the cancellation of this contract. The cancellation period is guaranteed if you return the goods before the expiry of the fourteen day period. You shall be solely responsible for the direct costs of returning the goods. You shall only be responsible for any diminished value of the goods if this loss is the actual result of unnecessary handling of the goods by you to check their characteristics, properties, features, and function.

› CANCELLATION TEMPLATE:

If you wish to cancel the contract, please complete this form and return it to us:

Send [by registered mail, email or fax as per company information] to:

- I/We (*) hereby cancel the contract which I/We (*) have entered into for the purchase of the following goods (*)
- Ordered on (*)/Received on (*)

- Name of the consumer(s)
- Address of the consumer(s)
- Signature of the consumer(s) (only for notification on paper)
- Date

› DELIVERY – SHIPMENT – RISK – DELIVERY TIMES:

Failing explicit and written agreement to the contrary our merchandise shall be deemed sold “ex works“ (works means Skinfit Koblach), even if delivery is made free destination with Skinfit’s or a third party’s vehicle or in installments. Partial deliveries may be made. Our information on delivery times is approximate and non-binding. No claims shall be made by customers for indemnification because of delayed performance.

› DEFECTS – WARRANTY – LIABILITY:

We guarantee that the condition of our products shall be in compliance with contract. Notification of defects is to be made in writing by registered letter without delay, however no later than seven days after receipt of the merchandise. A defect shall entitle the consumer to exchange or repair of merchandise. The date of the postmark shall be decisive. The consumer must demonstrate that the defect already existed at the decisive time, namely the time at which the risk passed. At its discretion Skinfit is entitled to satisfy claims for indemnification not only by exchange but also by repair or price reduction. Minor deviations in dimensions or colour are not deemed a defect. If notification of defect is not made in time or in the form set out above, the merchandise shall be deemed accepted.

› PAYMENT:

Payment is to be made by means of credit card, in cash, bank transfer, or money wire without deduction in advance.

› RESERVATION OF TITLE:

The merchandise delivered by us shall remain our unrestricted property until all liabilities arising from the transaction including any current account liabilities have been satisfied in full.

› PERFORMANCE – JURISDICTION – APPLICABLE LAW:

Place of performance for delivery and payment is Koblach, AT; this also holds true for the case that the merchandise is contractually delivered at a different place. This contractual relationship is governed by the laws of Austria and is not subject to the Convention Relating to a Uniform Law on the International Sale of Goods. Sole jurisdiction for all disputes arising from this contractual relationship shall be held by the competent court of law for Koblach. We are, however, entitled to file a lawsuit in the customer’s general jurisdiction. This stipulation of jurisdiction and applicable law is valid only insofar as jus cogens (for example for consumers) does not provide anything to the contrary.
